Electrical World

A Review of Current Progress in Electricity
and Its Practical Applications

Volume XCV

January 4 to June 28, 1930

McGRAW-HILL PUBLISHING COMPANY, INC.
Tenth Avenue at Thirty-sixth Street
NEW YORK CITY

General Alphabetical Index

PAGES BY ISSUES

1 to 80	Jan.	4
81 to 128	Jan.	11
129 to 178	Jan.	18
179 to 226	Jan.	25
227 to 274	Feb.	1
275 to 322	Feb.	8
323 to 372	Feb.	15
373 to 420	Feb.	22
421 to 468	Mar.	1
469 to 516	Mar.	8
517 to 566	Mar.	15
567 to 622	Mar.	22
623 to 670	Mar.	29
671 to 718	Apr.	5
719 to 766	Apr.	12
767 to 816	Apr.	19
817 to 864	Apr.	26
865 to 912	May	3
913 to 960	May	10
961 to 1010	May	17
1011 to 1058	May	24
1059 to 1106	May	31
1107 to 1186	June	7
1187 to 1234	June	14
1235 to 1312	June	21
1313 to 1360	June	28

A

Academy of Political Science—Public control of power ... 793

Accident and Accident Prevention:
- Airplane crashes into transmission line (N) ... *819
- Better apparatus grounds for safety and service ... 545
- Framingham linemen feted on safety record (N) ... 475
- Linemen avoid hazard by climbing gin pole ... *439
- Making low-voltage industrial circuit safer ... 984
- Mechanical resuscitation not favored by N.E.L.A. (N) ... 774
- Safety activities on electrical properties 835, 886, 936, 990, 1028, 1078, 1205

Accounts relation to management. F. T. Griffith ... 1285

Addressograph automatic form printing ... 622

Advertising:
- Electrical advertising an investment, says J. E. Davidson ... 1290
- For public relations (Ed) ... 1115
- Getting the family vote by direct mail 311
- Harvard Business School makes awards (N) ... 476
- Maximum volume in sales ... 982
- Selling through advertising. H. C. Wilson ... 942
- Use of advertising by power industry (Ed) ... 778

Air-cooled bearing oil ... *498

Aircraft production speeded by electricity ... *343

Airships—Electrified airship dock ... *601

Aluminum Co.—relies largely on electrical applications at Massena Mill ... *742

American Gas and Electric Co.:
- Contributions of the holding company. Geo. N. Tidd ... 647
- Federal Trade Comm. hearing ... 607
- Hearing ends (N) ... 568

American Institute of Electrical Engineers:
- Asks sole electric standardizing body (N) ... 426
- Meeting in Toronto (N) ... 1315
- Northeastern district meeting (N) ... 962
- Railroad electrification experts at New Haven (N) ... 425
- Service reliability motivates convention ... 288

American Society for Testing Materials—Committee report (N) ... 629

American Society of Mechanical Engineers:
- Fiftieth anniversary (N) ... 627
- Semi-centennial meeting (N) ... 720

American Standards Association—Expenditures for three years underwritten (N) ... 136

Apparatus—Better apparatus grounds for safety and service ... 545
Design. John H. Kuhlmann (D) ... 410

Appliances:
- Electrical statistics for California farms ... 1164
- Full-use electric home. E. R. Acker. 1158
- How to keep, working ... 153
- How West Coast developed its domestic business. W. C. Heston ... 1165
- Merchandise sales bigger than purchases of energy (Ed) ... 385
- One sale electrifies the home ... 544
- Selling appliances in multiple (Ed) .. 527
- Selling complete home electrification. E. Whitehouse ... 1297
- Selling the homes. L. W. W. Morrow. 1155
- Swiss sale of appliances in 1927 and 1928 ... 843

Associations and Societies — Engineering Foundation Inc. succeeds United Engineering Society (N) ... 83
- Manufacturers' support of local leagues (Ed) ... 141

Assn. of Electragists—Will draft fair practice rules (N) ... 571

Assn. of Iron & Steel Electrical Engineers—Meeting at Buffalo (N) ... 1316

Awards—Bonbright prize goes to winner's widow ... 1284
- Coffin award to Public Service Electric & Gas Co. ... 1274
- Prizes awarded at San Francisco convention, N.E.L.A. ... 1276

B

Bearing-sealed-sleeve ... *1186

Boilers:
- Hell Gate Station design. W. E. Caldwell ... *500
- Mercury boiler used at station of Hartford Elec. Light Co. (N) ... *526

Bond & Share hearings await action (N) .. 1014

Book Reviews:
- Advanced laboratory practice in electricity and magnetism. E. M. Terry 854
- Arbeiten aus dem Electrotechnischen. R. Richter ... 1224
- Electric wiring. A. A. Schuhler ... 1224
- Electrical distribution engineering. H. P. Seelye ... 950
- Elements of electricity. Anthony Zeleny ... 854
- Handbuch der Experimentalphysik. W. Schottky ... 854
- High-voltage cables. P. Dunsheath ... 854
- High-voltage cables. L. Emanueli ... 998
- Industrial electricity and wiring. Mayer & Wostrel ... 998
- La decharge electrique dans le vide et dans les gaz. M. Leblanc & M. Leblanc ... 1224
- Massachusetts regulative laws. Allan Brooks ... 756
- Photoelectric cells. N. R. Campbell & Dorthy Ritchie ... 756
- Principles of radio. Keith Henney ... 756
- Public utility control in Massachusetts. I. R. Barnes ... 998
- Radio manual. G. E. Sterling ... 998
- Standards yearbook, 1930 ... 854
- Starkstromtechnik (Heavy current engineering). E. Rziha & J. Seidener 756
- Storage batteries. G. W. Vinal ... 950
- Vorschriftenbuch des Verbandes Deutscher Elektrotechniker ... 998
- Wave mechanics. H. T. Flint ... 950
- Wechselstrom - leistungsmessungen. W. Skirl ... 998
- Worked examples in electrical technology. F. Peasgood & H. J. Boyland ... 1224

Boulder Dam:
- Agreement between factions as to division of waters (N) ... 427
- Arizona means to fight Supreme Court (N) ... 476
- Attorney - general approves contracts (N) ... 1190
- Awaits appropriation approval (N) .. 967
- California interests reach final agreement (N) ... 624
- Colorado Basin executives discuss division of water (N) ... 327
- Colorado Board wants dam raised 25 ft. (N) ... 824
- Congressional activities with electrical interest (N) ... 229
- Contracts signed in California (N) ... 869
- Electric pumping for Colorado River .. 282
- Forms for power leasing sent out by Int. Dept. (N) ... 471
- Nevada wants dam power for electrochemical use (N) ... 231
- Opposition from Arizona (N) ... 1314
- Projects overshadowed by act (N) ... 677
- Supplemental contract (N) ... 1109
- Wilbur sticks to 1.63 mills for power (N) ... 70

British & International Utilities Ltd. — Organized (N) ... 1108

Brooders—Radiant electric type revives application. T. A. Wood ... *311

Budget, light and power, 1930 ... 41

Budgets—Reduces operating radio. F. B. Lewis ... 203

Building—Doherty to build four skycrapers in N. Y. (N) ... 966

Building and electrical construction anticipated. Leo E. Mayer ... 19

Busbars and Buses:
- Bottlenecks in industrial plants (Ed) .1199
- 50,000 Amp aluminum bus and shunt. J. E. Housley ... *889
- Ground-fault relaying with metal-inclosed buses. Dean & Wetmore .. *1024
- Tandem disconnects reduce bus material ... 843

Bus Supports—Center bolt type bus support ... *516
Line with cantilever strengths ... *420

Business Conditions:
- Follow through with sales effort and advertising. Otto H. Falk ... 21
- Better bond market predicted for 1930. C. W. Sills ... 214
- Betterment expenditures now will maintain prosperity ... 199
- Plans ten per cent gain; urges teamwork. R. J. Russell ... 20
- Power of co-operation (Ed) ... 681
- This year's, to equal last. Albert L. Salt ... 19

Business News and Market Conditions 76, 124, 172, 222, 270, 318, 366, 416, 464, 512, 560, 618, 666, 714, 762, 810, 860, 908, 956, 1004, 1054, 1102, 1184, 1230, 1356

C

Cable:
- Buried armored cable serves industrial plant. A. B. Apple ... *695
- Cincinnati replaces four overhead circuits with three-conductor cable (N) ... 1195
- Conduits for cable groups. Kennerd Pinder ... 115
- Distribution cable more reliable ... 741
- Handling reel in mountains easily and cheaply. J. Elmer Housley ... *495
- Interplant feeders utilize catenary suspension. J. A. Cook ... *553
- Joining two big systems (N) ... *382
- Making bridge measurements with high voltage. F. E. Reeves ... 928
- Non-conduit system saves in underground construction ... 439
- Recommended color scheme for control cable ... 1210
- Reel cart speeds laying of street-lighting cable. R. J. Drake ... *457
- Simplified joints save $15,000 yearly 196
- Tractor-powered winch speeds cable stringing. J. Elmer Housley ... *701

Calculus—Heaviside's operational calculus. E. J. Berg ... 360

Canada:
- Expansion news (N) ... 575
- Hydro plants completed in 1929 or planned for early start ... 342

*Indicates illustrated articles

1928 exports kw.-hr. to U. S. (N)... 678
Ontario government to help rural service (N) 523
Ontario Hydro buys large private utility (N) 627
Quebec government will aid rural electrification (N) 523
Water power in Canada. Smith and Christie 1330
Catenary suspension used on interplant feeders. J. A. Cook..... *553
Caterpillar wagon. Hoosier Engineering Co. *340
Census of Manufacturers for 1927—Ratio between rating of motors and generators 341

Central Stations:
How a steel man views utility tie-in 636
Résumé of operations, 1921-1929. G. F. Wittig..... 22
Revenue and energy output, 1921-1929. G. F. Wittig (Chart and Tables).. 22
Channeling machine *1189
Charts—alignment charts save time. Wm. W. Edson *438
Chicago World's Fair—Plans for the electrical part (N)..... 377

Circuit Breakers:
Automatic reclosing breakers reduce outage time. E. R. Stauffacher... 892
Breaker—operating shaft on roller bearings *960
Breakers for motors up to 550 volts. *1360
Confusion regarding rating of oil. J. D. Wood 118
Connecting 50,000 amp breaker to aluminum busbar. J. E. Housley.. *943
Deion breakers in standard service.. *484
Deion grids for oil breakers..... †*249
Field tests on Deion grid breakers. L. W. Dyer..... *786
High-speed breakers. H. E. Strang.. *885
High-voltage breakers deion grid equipped 960
Indoor oil-circuit breaker..... *670
Indoor oil circuit breaker..... *1310
Manhole circuit breaker..... *912
Mechanically trip-free outdoor breaker. *814
100,000 volt arc ruptured by air jet.. *798
Outdoor breaker *1058
Rapidly changing art (Ed) 827
Regular inspection insures better service. H. T. Sutcliffe..... 244
Research improves (Ed)..... 239
Saving $30 per day in wiring of Providence Warehouse *1044
Single tank 3-phase breaker shows space and oil savings..... 604
Small circuit breakers save time losses in railroad shop. G. T. Johnson.. *1206
Time-delay air circuit breaker..... 814
Timing opening of breaker contacts. H. T. Sutcliffe..... *207
220-kv. tests on Deion grid breakers. L. W. Dyer..... *844
Clamp—dead-end for rural lines..... *1310

Coal:
Coal surcharge unjust. N. Y. Community Councils assert (N)..... 524
Consumption, 1919-1929 (C) 43
Electric coal handling saves in industrial plant 1222
Electrical coal loader..... *1060
Graphic determination of steam plant increment rates. Richard Brown (Ch) 398
Seattle may burn pulverized coal instead of oil (N)..... 429

Coils:
Choke coil defended. E. H. Jacobs... 599
Commonwealth Edison Co.—Edw. J. Doyle. *430

Condensers:
Crawford station tests chlorinator... *326
Hell Gate Station condensers. W. E. Caldwell 448
Leaside outdoor synchronous condensers *1196
Synchronous condenser and ratio control at Consumer's Power Co. B. E. Morrow *94

Conduits:
Conduit pusher cuts time to 1/15 of jacking method *197
Electrical conduits go to sea in 620 ft. sections *820
For cable groups. Kennard Pinder... 115
Non-conduit system saves in underground construction 439
Construction in many regions (N)..... 330
Construction, new 1929..... 43
Construction expenditures, 1930 (C)..... 177
Contactor—single-phase motor *1186

Control:
A. C. vs. D. C. solenoids for industrial. *303
Believes in spending money for continuity of service and to facilitate expansion *1080
Centralized control need not be complex *696
Compact control unit saves space, aids accessibility. A. L. Harvey..... *754
Concentrated motor control *1032
Controlling load, maintaining frequency. D. J. Jones *1072
Electric drive and control make possible compact, high-speed strip rolling *890
Half-degree temperature control. Kouwenhoven & Waldorf..... *1214
Interstation control wires avoid cascade relaying. G. M. Babcock.... *646
Limit switches co-ordinate presses in fabricating work 1095
Lost Chord in industrial operation (Ed) 828
Push button control for motor generators *1360
Recommended color scheme for control cable 1210
Series lighting loop controls substation circuits *835
Simple control gives full protection for synchronous motors *645
Single-pole pressure regulator..... *1008
Temperature loading and phase-angle control *302
Time-current motor control. H. K. Liedy *456

Control Devices:
Automatic Lifting magnetic..... *1186
Magnetic contactor type controller... 370
Magnetic controller allows motor isolation 468
Push-button units for industrial control (Ed) *79
Conveyors—aerial tramway for coal (N).. *629
Corn seed testing improved by electric heat *1222

Costs:
Ambassador Sackett talks out on distribution costs at World Power Conference (N) 1237
Cost comparison decide Houston network. Plumley & Seaman..... 1211
Customer extensions take sixth of new money 834
Decade's growth—139 per cent..... 1134
High frequency tools effect spectacular economies *830
Lift the economic curtain (Ed)..... 1069
One price for power. L. W. W. Morrow 1332
Power costs (Tables)..... 1334
A. W. Robertson observes..... 1262
Trends in engineering costs — their causes and remedies. A. H. Kehoe. 1258
What the engineer can do to reduce distribution costs. S. B. Hood.... *898
What's the fuss about? Not the electric dollar. E. Gruhl..... 1265
Couplings, self-aligning 79

Couzens Bill:
A.E.C. studying bill (N)..... 378
Approved by the House (N)..... 1188
Bill introduced giving Federal Power Commission authority over interstate power transmission (N)..... 518
Committee concludes inquiry (N)... 470
Discussion of bill (N)..... 568
Encounters opposition, halting house approval (N) 1108
Is Massachusetts unique?..... 189
Massachusetts commission against... 182
Passes (N) 1239
Too comprehensive a bill (Ed)..... 633
Couzens Committee—Utility hearing (N).. 422
Cranes—Revolving tractor-mounted crane. *499
Locomotive (N) *329
Ten-ton crane built of aluminum alloy. F. V. Hartman and E. C. Hartmann *552
Credit and wages foretell good year. F. R. Phillips 15

Customership Ownership:
Record customer sales-prospect for 1930. E. P. Young..... 1209
Sales decline, 1920-1929..... 67
Telephone, light and power, 1900-1929 (Ch) 38
Customers—Central station, by states....50-52
Cutouts, oil-filled for protecting 2,300 v. motors. B. W. Jones and G. F. Lincks *149
Czechoslovakia—Steam plants and hydro stations in *154

D

Dams:
Carpenter Dam nears completion..... *919
Coolidge dedicates Coolidge Dam (N). 522
Diablo Dam (N)..... *725
Ghost River dam..... *822
"Lake of the Ozarks"..... *920
Ozarks still fight Bagnell Dam (N). 522
Salt Springs, "world's largest" dam (N) *427
Saluda Dam fighting mosquitoes (N) 629
Saluda Dam has small slide (N).... 377
Stewart Mountain Dam giving service (N) 630

Dielectrics:
Corona and breakdown..... *296
Direct currents. C. E. Magnusson... 359
Measuring dielectric fields. M. R. Mulhotra *201
Photography in dielectric fields..... *397
Phenomena in high-voltage engineering. F. W. Peek..... 360
Nature of loss in (Ed)..... 92

Displays:
Contrast important factor in lighting displays. M. Luckiesh..... 404
Industrial electric heating window display *537

Distribution Systems:
Believes in spending money for continuity of service and to facilitate expansion *1080
Cost comparisons decide Houston network. Plumley & Seaman..... 1211
Cutting distribution costs. Thomas Sproule *530
Distribution line extensions $130 per customer 584
Expenditures for, 1923-1930 (C).... 42
Locating station distribution panels for economies. Max Kushlan..... *644
Network, when to start (C)..... 347
Saving $30 per bay in wiring of Providence warehouse *1044
What the engineer can do to reduce distribution costs. S. B. Hood..... *898
Why networks are used. D. K. Blake. *146
Dnieper river generators (N)..... 182
Drawings—Too many specifications—too inadequate drawings. M. M. Samuels 993
Drilling equipment with variable voltage.. *718

Ducts and Manholes:
Cast-steel covers for network vaults. E. F. Seaman..... *1078
Constructed for street lighting..... *345
Cutting distribution costs. Thomas Sproule *530
Economies in duct construction..... *145
Fire hose solves problem..... *301
Keeping people out of manholes. G. F. Speer *165
Manhole ventilator *1310
Non-conduit system saves in underground construction 439
Transformer vault ladder. C. W. Evans *892

E

Edison, Thomas A.:
Birthday honored (N)..... 325
Plaque unveiled in honor..... *374
Receives degrees (N)..... *525
Edison medal awarded to C. F. Scott (P) 252
Electric Bond & Share Co.—subsidiary companies (N) 768
Electric melting of stereotype metal..... *707
Electrical equipment, protection..... *288
Electrical Industry facts..... 815
"Electrical World"—Brief history of (N).. 71
For the new year (Ed)..... 3
Electricity on the farm. K. R. MacKinnon 259

Electrification:
And drought. Frank C. Wells..... 9
New ideas for paper mill electrification. S. A. Staege..... *546
Electromagnet — Electromagnetic problems in electrical engineering. B. Hague (D) 458
Richard Varley and Thomas Varley (D) 410
Electron Tubes—Replacing many existing devices. Prof. Harold Smith.....1206
Family tree 922
Substitutes for relays and regulators? (Ed) 1198
Elevators—Standardized drive for elevators 670

*Indicates illustrated articles

Employees:
Assume obligations to electrical workers 694
Cash bonuses to stimulate sustained zeal (Ed) 1022
Company loyalties are built around personalities (Ed) 972
Organization of generating plant personnel 978
Our employee relations. C. C. Chesney 541
Wage incentive in power plants..... 641
Wage incentive plan for utilities? (Ed) 479

Energy:
Bottlenecks in industrial plants (Ed) .1199
Consumption of electrical energy by manufacturers (C) 372
Consumption of electrical energy in New England (C)..... 566
Domestic consumption increased 768 per cent in eleven years. F. T. Griffith 1157
The domestic load — 500 kw. or 4,000? 1123
Domestic use, increase.....61-62
Electrifying Western industry.....1162
Fluctuation of index numbers (C).. 565
How a steel man views utility tie-in 636
Hydro and fuel, 1919-1929 (C)..... 43
Hydro-steam combinations. N. E. Funk 1343
Interstate energy 11.8 per cent in 1929 (N) 1191
Output, regional, hydro and fuel, 1927-1929 45
Output, uses, 1882-1929 (C)..... 39
Rates interest South Carolina (N)... 571
Ratio, hydro and steam, 1924-1929 (C) 36, 37
Reassured by science (Ed)..... 778
Source and disposition of energy of 137 systems (C).....1009
What price surplus energy? Paul McMichael 933

Engineering:
An engineering appraisal (Ed).....1114
Principles of electrical engineering. W. H. Timbie & Vannevar Bush... 360
Trends in engineering costs—their causes and remedies. A. H. Kehoe.1258
Values in engineering. C. F. Hirshfeld 1127
What will be tomorrow's engineering?.1136
Year in electrical engineering (Ed).. 2

Engineers:
Amer. Engineering Council census to classify engineers (N)..... 916
Avoid complacency (Ed).....1197
Basis for architect-engineer collaboration *748
College graduate and his job (Ed).. 876
Engineers and finance. C. E. Groebeck. 305
Law and the engineer. D. E. Lilienthal 1041
Power engineers can help industrial designers (Ed) 578
Psychological problem confronts engineers (Ed) 1320
Equipment classification for preliminary cost estimates 310
Europa—electrical equipment (N).....*624
European Electric Corp. Ltd.—Americans help form European holding Co... 279
Expansion bends to protect bushings..... 516

Exports:
Foreign market a dumping ground (Ed) 335
World markets are open to our electrical exports. Marshall T. Jones. 753

Federal Power Commission:
Bonner-Russell-King controversy 195
Dissension (Ed) 432
Hearing (N) 673
A new bureau? (Ed) 1021
Offers Priest Rapids ultimatum (N)..1111
Russell-Bonner controversy (N) 374
Senate passes Couzens bill (N)..... 965
Senator Wheeler unmasks World Power Conference (N) 471
To act on accounts. Paul Wooton... 700
To be reorganized (N) 1314
Troubles of the. Frank C. Wells.... 8

Federal Trade Commission:
Amer. Gas & Electric Co. hearing.... 607
Electric Bond & Share Co. has hearing (N) 818
Figures on interstate business well exceed N.E.L.A. (N)..... 519
Foshay finance examined (N).....1239
Inquiry adjourned (N) 568
Still occupied with A. G. & E. and its transactions (N) 471
Testimony on A. G. & E. (N) 518
Utility hearing (N) 423
Utility investigation (Ed) 433

F

Finance:
Budget control major factor in reducing operating ratio. W. E. Mitchell 13
Effects of market panic 63
Engineers and finance. C. E. Groesbeck 305
Financial and merger outlook. M. S. Sloan 11
Offsetting reduced capital turnover and securing sane regulation. M. S. Sloan 1250
Plan now for post-depression period (Ed) 1115
Prosperity funds of 1929 for 1930 spending. Clarence L. Collens.... 17
Record customer sales-prospect for 1930. E. P. Young 1209
Stocks — why convertible issues? Walter N. Durst 151
Utilities should finance rural service lines. M. W. Winder.....1291
Financial and Statistical...74, 121, 169, 219, 267, 315, 363, 413, 461, 509, 557, 615, 663, 711, 759, 807, 857, 905, 953, 1001, 1051, 1099, 1182, 1227, 1306
Financing, annual 1920-1929 65
Flares for linemen 1186
France—Goes electrical. Damon C. Woods. 702
Frequency converter *814

Fuel:
Consumption, 1913-1929 (C) 39
Consumption, regional 45
Full-floating contacts, self-aligning..... *79
Duplexing possibilities with electric furnaces (Ed) 1319

Furnaces—Electric:
Electric cast-iron melting improves production 357
Furnace to manufacture alloy steel..*1193
High-speed steel-hardening furnace..*1106
How an industrial plant cured electrical ills *780
Size no obstacle to electric heat treating *656

Fuse:
Angle-mounted expulsion *176
Arc chute expulsion fuse *516
150-amp. angle mounted fuse *622
Primary fuse cutouts for crossarm mounting *912
Fuse plug with pyrex glass top..... 128

G

Gas—Kettleman Hills produces natural gas *1161
Gas analyzers 176
or electric heat for industrial processes? 841
Gasoline — Frictional electrification of gasoline 554
Gears—Stoker gear unit has two speeds..*718

Generating Stations:
Beerbower station opened (N).....*327
Congratulations to Hartford (Ed).... 683
Co-operative power supply will serve Cambridge, Mass. Harding U. Greene 803
Detroit to have largest single pumping station (N) 573
Hell Gate Station design. W. E. Caldwell *500
Indiana Utility plans ahead at Michigan City (N) 428
Lexington finishes service at Tacoma. 181
Long Beach continues its high economy *984
Long Beach unit No. 11 goes into service (N) 477
Moscow power house *380
New construction, 1929 43
Parr Shoals station rating increased (N) 331
Power plants and systems—Detroit. Alex. Dow 883
Power units larger each year (C)... 371
Recent expansions in Canada East and West (N) 429
Single-source auxiliaries at Gorgas. J. M. Gallalee & R. M. Ferrill....*837
State line to add 275,000 kw. in two units (N) 231
Tidal-power project drops international feature (N) 326
Trinidad (Tex.) plant to be doubled (N) 330
Water tunnel construction in N. Y. C. F. J. Porter, Jr. (C)..... 409

Generation:
Hydro-steam combinations. N. E. Funk 1343
Mercury-vapor generating unit producing seven-tenths pound per kilowatt-hour (Ed) 1197
State line generating contracts sustained (N) 1237
Union Carbide & Carbon Corp. to add 140,000 hp. (N) 1193

Generators:
Aircraft production speeded by electricity *343
